

## Guide to the 3-Day ‘Developing Advanced Practitioners (AP)’ Professional Development Programme

Department for Education interest in the role of Advanced Practitioners in driving quality is currently high. This innovative professional development programme will enable us to work with you to:

- deliver effective and powerful CPD;
- identify and harness outstanding teaching, learning and assessment;
- drive quality improvements across your organisation.

The programme will model approaches that you can apply to your own work as an AP, and will be delivered through a blend of input, discussion and reflection. There will be a strong, practical focus on evaluating and developing the AP skills that provide effective peer-to-peer support with colleagues back in your organisation.

### What commitment do we seek from you?

The table below captures key activities that you will be asked to complete prior to starting the professional development programme and between the residential (Days 1&2) and Day 3 of the delivery. Please **discuss this in advance with your line manager** so that they are aware of the level of commitment this programme entails and can support you, and your organisation, to gain the maximum from your involvement.

Programme Activities	When
Complete pre-programme reading (4 documents, plus answers to three reflective questions - issued on sign up)	Before the residential
Attendance at a two-day residential.	March 2019
Plan and start to deliver a ‘Supported Experiment’ with colleagues that is linked to one of your organisation’s key teaching, learning and assessment objectives. (Scoped during Day 2 of the training.)	Between March and Day 3 (June 2019)
Attendance at Day 3 of the training.	June 2019

## **What in turn can you expect from us?**

In addition to attending 3-day CPD programme, you will receive an AP toolkit full of practical resources which you can use to extend your own knowledge, skills and behaviours as well as to support the colleagues you will be working with.

## **Course Dates**
